Professional Summary

A detail-oriented **Full-Stack Developer** with over 2 years of experience building and deploying robust, scalable web solutions. Specialized in **Front-End development** with **React.js**, I excel at translating designs into intuitive and highly functional user interfaces. I have proven experience in **e-commerce projects** and am skilled in full-stack development using **Node.js** and **PostgreSQL**. I am a quick and eager learner, ready to adapt to new technologies like **AWS** to meet project needs.

Professional Experience

Dissau LLC – Full-Stack Developer *May 2024 – Present*

- Developed and deployed full-stack **e-commerce websites**, integrating diverse payment gateways such as **Stripe and PayPal**.
- Designed and implemented scalable web application architecture and back-end solutions using **Node.js** and **PostgreSQL**.
- Wrote, modified, and tested a wide range of web and mobile software code to meet client requirements.
- Coordinated development workflows using **Agile methodologies** to ensure projects were delivered on time.

Tecopos – Web & Mobile Developer *July 2023 – May 2024*

- Wrote, integrated, and tested code for mobile and web applications focused on customer loyalty and retention programs.
- Maintained and optimized complex legacy codebases, significantly improving overall stability and performance.
- Collaborated effectively within a team to deliver high-quality features under tight deadlines.
